The test result values are number of animals tested positive over number of animals tested.

NA = Not Available

**Ranking of the current status**

Superior

Excellent

Good

**Footnotes;** Microbiology was performed by cultivation methods.

Serology was performed by ELISA methods, with positive samples subsequently confirmed through IFA.

Superior is no positive result in all categories, excellent is no positive result of pathogens in Category A, B, C and E, good is no positive result of pathogens in category A, B and E.
