Ranking of the current status

Superior

Excellent

Good

Remarks:

The results revealed that *Pasteurella pneumotropica* was isolated (88.89%) with no clinical signs of disease and no other significant organism isolated.

Superior is no positive result in all categories, **excellent** is no positive result of pathogens in Category A, B, C and E, **good** is no positive result of pathogens in category A, B and E.

* The test results are represented in the **number of positive Samples/Number of tested samples**

** Optional testing

NA= Not Available

ELISA=Enzyme-linked Immunosorbent Assay

IFA= Indirect Fluorescent Antibody

PCR=Polymerase Chain Reaction

Positive results from ELISA technique were confirmed by IFA.
